Dear Mrs Hinder,

I refer to the conversation between myself and a lady called Sian from your department who advised me to contact you in relation to my refusal to pay Council Tax based upon the fact that your organisation are undertaking criminal actions that may have an impact and cause the death of members of my family and of other residents surrounding a toxic waste dump in Glynneath that your council refuse to follow protocol on.

I have also identified the failure of your council to scrutinise the care of children in the Neath Port Talbot area since 2019 when it was first brought to the attention of Cllr Simon Knoyle. Your council are therefore breaching United Nations guidelines for the care of children in the play environment to which the Welsh Government are signatories.

I previously met with one of your staff at the court in Swansea who had this information laid out in front of her. As such your department are guilty of covering this up. I have made this information publicly available on the following web page.

I attach the following information previously submitted to the Chief Finance Officer in June 2022 which I believe has not been dealt with. The communication was extensive with many additional documents that provided evidence to the CFO.

The following note made on the attached communication to the Chief Finance Officer now applies to you.

"If, as per your protocol you summons me to the courts and then instruct bailiffs to act on behalf of the council to recover what you believe to be an outstanding debt, you will be considered to be and shown to be supporting the endangerment of Glynneath residents lives (Corporate Manslaughter) and the abuse of Welsh children contrary to the United Nations Children's Charter. Eventually, my team and/or the relevant authorities will make sure that you personally will be made accountable publicly and legally for your actions. "

I also attach communications from your Council Chief Executive to my MP Christina Rees which constitutes a criminal action based upon the criminal offence Misconduct in Public Office and the Nolan Principles to which she should adhere. (Christina Rees MP who is copied to this email can confirm that this email is original as sent by your Chief Executive.

You will note that the Chief Executive makes an Ad Hominem attack on me personally without providing evidence and then points the MP to my website where she will find all the evidence she needs to understand the criminal activities of your colleagues.

Lesley Spencer public information: <http://www.walk-around-wales.com/county/npt/info/council/employees/spencer-lesley-council-tax-recovery.htm>

As per my advice to your Chief Finance Officer, I would that you follow protocol in relation to your staff code of conduct.

Standards 2.1 - undertake due diligence and/or report information received in a communication.
