Dear Mayor- The video will also look at your role in referring the matter back to a previously identified corrupt member of NPTC which did not actually happen and the fact the GTC is according to your website is a totally separate local authority operating on a larger and wider scale than local council such as Glynneath Town Council. Your role in "The Mayor of Murder Town" will be highlighted particularly as you were in receipt of information that provides evidence of the endangerment of the lives of Glynneath residents. You have an opportunity to defend your actions in advance of the video release. Regards - David Richards
