

1. Council of Death document – Evidence of council malpractice that placed Brynhyfryd residents at risk. DM & SK received this on 7/9/20 prior to the 2020/0195 Planning Committee meeting.
2. DM & SK whitewash post on 25 October 2020 intended to influence councillors at the GTC meeting. This post was tagged on to Council Leader statement prior to the meeting to discuss due diligence on the report.
3. PSP report submitted to GTC after the 3rd death of a Brynhyfryd resident from a rare neurodegenerative disorder. The chances of 2 PSP deaths in a series of 5 houses within 5 years at any location in the UK are 1 in 16,000,000 (16 million).
4. PSP report disposed of/hidden by councillors at GTC.
5. Both SK & DM in possession of information since 19/7/21 that shows the planning department have misrepresented a major UK Government law in relation to the Heol-y-Glyn site. See Ceri Morris video on YouTube (1 of the 2 documents mentioned in their whitewash post of 25/10/20).
6. Both SK & DM have been in possession of this information and the PSP report since 19/7/21 and to the best of my knowledge have not presented to the GTC.
